Tēkasa'i Scheduled Oil Sampling & Testing Program

What is T.S.O.S.T Program?

It's an on site, cost effective & reliable oil analysis program that enables you to monitor your engine's health more closely and helps you to take correct operational and maintenance decisions quickly.

- As per set interval our expert will visit your place with the "Tekasai Portable Oil Analysis Lab"
- With your staff, he will collect engine oil samples and complete the lab test on site
- A comprehensive test report will be provided immediately after finishing the test
